Important updates about behavioral health services that will affect you.

We are happy to share that effective June 1, 2016, Family Health Network (FHN), Community Care Alliance of Illinois (CCAI) and Community Care Alliance of Illinois, NFP (CCAI, NFP) will be contracting with behavioral health specialists directly. FHN, CCAI and CCAI, NFP will handle all behavioral health benefits, contracting, credentialing, and claims administration.

To continue providing services to FHN, CCAI and CCAI, NFP members, you will need to contract with us. Please contact Scott Krugel, Network Management Specialist, at SKrugel@myfhn.com or 312-605-9828 to initiate the contracting process. If you are in PsychHealth's network you should already be credentialed in our system. This will expedite the onboarding process.

All members who are under your treatment should continue to receive their services. We will provide a continuity of care approval for up to 90 days, to ensure there is no disruption with a member's treatment plan.
